HOSE LINE

HOSE LINE provides complete range of hose reels which include manual, automatic, swing and fixed type in 1" or 3/4" diameter. Automatic hose reels are available with an internal valve built into the hose reel unit. HOSE LINE hose reels are manufactured and approved to British Standard (European standard) BS EN671-1 and Australian Standard AS 1221. Compliance to the stringent test required by the above standards guarantees excellent durability and performance.
