HATTERSLEY Ductile Iron Fully Lugged Butterfly Valve

Figure No: 4970

Ductile Iron Fully Lugged Butterfly Valve

Pressure Rating: PN16

Material: Ductile Iron

Ductile Iron Fully Lugged Butterfly Valve

- **Pressure/Temperature Rating**

- 16 bar from -10 to 120 degs C.
- 15.7 bar at 130 degs C.

-

- **Test Pressure**

- Body: 24 bar
- Seat: 17.6 bar

-

- **Specification**

- Generally conforms to BS EN 593
- Ductile Iron body epoxy coated
- Fully Lugged
- Stainless steel disk
- EPDM liner
- To suit flange connections BS EN 1092-2 PN16
- Valves may be used for flow regulation
- Valves DN250 and larger supplied as standard with fully enclosed gear operator.

° Valves DN450 and larger supplied with spur gear unit as part of gear operator.
